Shyborg, 2023

My work shows objects and characters that go through some kind of psychological evolution. I´m interested in the contradictory. When I work around a concept I want to show the unforeseen that still feels natural. Good things must be shown from their bad side and vice versa. I work within theme based phases that culminate into groups of works mostly consisting of painting, photography, sculpture and drawing but my daily practice is in painting. Lately I use zoom to reveal structures on surfaces or hidden places. With my work I aim to be fearless and disturbing while remaining a sense of quirky cozyness.
